

IMPORTANT NOTICE FOR ALL COMPANIES WITH LIFT TRUCKS

LIFT TRUCK OPERATORS MUST BE TRAINED AND CERTIFIED!

Employers must provide training for each operator regardless of their prior experience or safe driving record. Written proof that operators have received a comprehensive training program is to be on file and made available when on-site inspections are conducted. Failure to comply with this regulation can result in fines of up to \$7,000.00 per untrained operator.

Cardinal Carryor is prepared to help you meet these requirements. We have training programs that will expand the knowledge and safety awareness of your operators regardless of their amount of experience. The classes will also provide you with all the documentation required by OSHA, Section 1910-178.

Our "Safety Starts With You" training program is for all levels of forklift operators. Our trainer will come to your facility to train your employees on how to safely operate industrial equipment through classroom and hands-on instructions. This training will be specific training to your application and type of lifts.

\$125.00 PER TRAINEE
(MINIMUM 6, MAXIMUM 10 PER/CLASS*)

The "Train-The-Trainer" program will enable your company to send an experienced and knowledgeable employee for one-day of classroom instruction. Training provided will cover everything required to comply with OSHA and all other related standards. Upon successful completion, attendees will return qualified to train, evaluate and certify the other employees assigned to operate lift trucks at their facility.

\$650.00 PER TRAINEE
(MINIMUM 4, MAXIMUM 10 PERSONS/CLASS*)
